

**CONCRETE STREET MAINTENANCE PROGRAM, CHAMPAIGN, ILLINOIS**

The Champaign Concrete Street Maintenance is a multi-year project which includes the development of a set of design plans and construction supervision of various locations in the City of Champaign.

In 2009, the following locations were selected:

1. PCC Patching - Devonshire Drive from Prospect Avenue to Neil Street
2. PCC Patching - Windsor Road from Neil Street to First Street
3. Street reconstruction - Newbury Road from Robert Drive to Galen Drive
4. Street reconstruction - Winston Dr. from Summit Ridge Rd. to Williamsburg Dr.
5. Street reconstruction - Thornton Drive from Williamsburg Drive to Hedge Road
6. Street reconstruction to Urban standards - Eureka St. from Hickory St. to Market St.
7. Street reconstruction to Urban standards - Champaign St. from Eureka to Beardsley Ave.
8. Curtis Road Maintenance from Staley Road to Rising Road

The services provided include survey, geotechnical, development of preliminary and final design plans for bidding, cost estimating, bidding, and construction inspection and management.
