

**SOUTH ARSENAL ROAD - WEST
WILMINGTON, ILLINOIS**

Resident Engineering services were provided for this \$4 million project included approximately 1.5 miles of widening and reconstruction.

This reconstruction project involved earth excavation, construction of storm sewers and drainage structures, combination curb and gutter, hot-mix asphalt pavement, hot-mix asphalt shoulders, channelization with thermoplastic pavement markings and all of the incidental and collateral work necessary to complete the project.

Service Provided:

- Full-time Resident Engineering and Construction observation
- Coordination of material testing
- Coordination with local businesses and residents
- Review of traffic control
- Coordination of weekly progress meetings
- Document daily work production
- Prepare contractor's pay estimates and change orders
- Prepare final documentation and record drawings
- Coordinate and manage compliance with Motor Fuel Tax Funding

This project reflects Firm
and Staff experience.
