

**NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM  
(NPDES) PERMIT MONITORING SERVICES  
LONG GROVE, ILLINOIS**

ESI Consultants, Ltd. represents the Village of Long Grove for NPDES Permit Monitoring on several commercial and residential developments. We have taken on projects in various phases of development including projects which were already in violation. This includes the design of sediment and erosion control measures where positive results quickly and effectively appeased the agency inspectors.

Our experience and proactive approach has led to the minimization, and in some cases, the elimination of fines to the property owner. ESI has both the proven experience and the in-depth knowledge of the Illinois Environmental Protection Agency (IEPA) permitting process to the rapidly close out construction projects.

**Services Provided:**

- Stormwater Modeling
- Erosion Control and Inspection
- Site Planning
- NPDES Compliance
- NPDES Permit Applications

This project reflects Firm  
and Staff experience.
